

Showing Your Work during a Presentation without Any Distractions

If you plan to use your **Microsoft Visio 2007** drawing in a presentation, you will want to show the screen in **Full Screen** view. When using this view, toolbars, menus, titlebars, etc. are hidden. Your drawing will fill the entire screen without any distraction.

To enter Full Screen View:

1. Open the drawing you want to present.
2. Go to the **V**iew menu.
3. Select **F**ull Screen.
4. Your drawing will now appear in full screen mode as shown below.

5. Use the **left** and **right** arrows on the keyboard to navigate in a multiple page drawing.
6. Press the **Esc** button to return to normal viewing mode.
